RE: Victory Political Action Committee  
FEC ID C00344374

To whom it may concern:

This is to respond to three related requests for information from the Commission dated August 14, 2012, August 14, 2012, and August 23, 2012.

The first request is for information about our amended 2011 year end report. The original year end report failed to include two disbursements (\$15,000 to the National Republican Congressional Campaign Committee on December 17, 2011 and \$62.00 to the US Postmaster on December 17, 2012, and it included a \$2500 contribution from the Honeywell PAC that should not have been reported until the February 20, 2012 monthly report. We filed an amended year end report on April 13, 2012 to reflect the omission of the two disbursements and we filed an amended February 20, 2012 monthly report to report the January 15, 2012 contribution from the Honeywell PAC.

The second request is for a correction of the beginning and ending balances on our March 20, 2012 monthly report. The balances were out of synch because of the amended reports referenced above which were filed on April 13, 2012. This morning we filed an amended March 20, 2012 monthly report which reflects the proper beginning and ending balances.

The third request is for a correction of the beginning and closing balances on our April 20, 2012 monthly report. The balances were also out of synch because of the amended reports referenced earlier that were filed on April 13, 2012. This morning we filed an amended April 20, 2012 monthly reports which reflects the proper beginning and ending balances.

With the filing of the amended March 20 and April 20 monthly reports, the rest of our 2012 monthly balances properly reflect the accurate beginning and ending balances for each reporting period.

It is my hope that this memo appropriately responds to your request for information in these three matters.

Sincerely,

Paul J. Bedinghaus  
Treasurer
